Objective

Full Stack Developer with experience bringing web applications from conception to completion.

Education

- Case Western Reserve University, Cleveland, OH
- CWRU Coding Bootcamp – Full Stack Web Development
- An intensive 24-week long bootcamp dedicated to designing and building web applications. Skills learned consisted of HTML5, CSS3, JavaScript, jQuery, Bootstrap, MySQL, MongoDB, Express.js, React.js, and Node.js.

PROJECTS:

Dinner and a Show

- Web application that allows users to search for concerts and festivals by city or artist, and when given a list of shows user chooses a show and is then given a list of nearby restaurants to plan their night. Utilizes SongKick Database and Zomato database to deliver relevant information about concerts to the user and then display nearby restaurants within a 5-mile radius of the venue.
- Lead JavaScript developer in team of 5.
